

## Suppliers list

### WATER FILTERS

#### Andrew's Water Filters

Tel: 01704 531 556

<https://www.andrewswater.co.uk/actb1-2-aqua-cure-colonic-hydrotherapy-filters>

*This is a triple filtration system which will last longer than a single filter but is more onerous. Andrew's also sells home filters and operates a commission system for therapists.*

#### Screwfix (for cheap single filter housing only)

[https://www.screwfix.com/p/bwt-high-capacity-water-filter-kit/16747#product\\_additional\\_details\\_container](https://www.screwfix.com/p/bwt-high-capacity-water-filter-kit/16747#product_additional_details_container)

*The Screwfix housing must be fitted with a Suitable 10" cartridge which provides at least 0.5-micron filtering (this is a safety requirement and is to ensure filtration of **Cryptosporidium** a microorganism resistant to chlorine and other chemical water sanitation method)*

0.5 microns filter cartridge are available here:

<https://www.freshwaterfilter.com/multipure-subm-05-small>

### DISPOSABLE TUBINGS AND BESPOKE EQUIPMENT (MACHINES)

#### Dotolo Europe Ltd. (Steve)

Tel: +44 (0)844 854 92 22

<https://dotoloeurope.com/product/standard-speculum-kit-1-5m/>

*The kits are imported from Germany those are the tubing packs I use in practice. I prefer them over any other brand because of the outlet tube which is longer and more rigid and allows a comfortable Neutral position as well as a clamp. Also Supplies the Hermann colonic machine and other Hermann equipment.*

#### International Colon Hydrotherapy Foundation (Jean)

Tel: 0208 669 5155

<http://www.colonic-irrigation-equipment.co.uk/3.htm>

*Jean has flanged specula which can be more suitable for some people. You can have a few on stand-by to replace the one that's in your regular packs. The outlets in her packs are very short so I don't recommend those pack!*

#### Colonic Supplies (Galina)

Tel: +44 (0) 1628 62 66 11

<https://www.colonicsupplies.online/machines-spare-parts-treatment-accessories>

*Galina has an extensive range of supplies, including gravity fed tank, machines, enema kits, syringes, implant catheters, plumbing supplies and incontinence pads. You can also get reels of corrugated plastic outlet to cut to size and fit a speculum of your choice (see Jean above).*

#### Kingspeed Services (Dave)

Tel: 01322 380022

<http://www.kingspeedservices.com/colonic>

*Colonic supplies (including long catheter) and Transcom (Spanish) colonic machine/packs and other colonic supplies.*

### GRAVITY FED SYSTEM & ENEMA KITS

#### Practitioner Supplies (Catherine)

Tel: 01254 662 585

<http://practitionersupplies.co.uk/colon-hydrotherapy-equipment/125-25litre-colon-hydrotherapy-gravity-tank.html>

*When ordering the last stage tubing that connects between gravity tank and inlet pipe from speculum pack make sure to check size to be compatible with your speculum pack inlet. The German (Herman) packs will need a maximum size silicon tube of 8mm.*

#### Colonic Supplies (Galina)

Tel: +44 (0) 1628 62 66 11

<https://www.colonicsupplies.online/machines-spare-parts-treatment-accessories>

*See above for more details*

## THERMOMETERS

### ETI Thermometers

Tel: +44 (0)1903 202151

*Basic fish tank thermometer only suitable with a second and different thermometer for regular in-clinic calibration*

<https://thermometer.co.uk/home-thermometers/1234-aquarium-thermometer-with-in-fish-tank-and-room-sensors.html>

*A thermometer with a calibrated certificate does not require a second thermometer.*

<https://thermometer.co.uk/industrial-thermometers/994-therma-waterproof-type-k-thermometer-with-ip6667-protection.html>

*It must be purchased with a suitable probe for full immersion as per the manufacturer's recommendation.*

[https://thermometer.co.uk/thermocouple-probes/1246-submersible-temperature-probe.html?search\\_query=133305&results=1](https://thermometer.co.uk/thermocouple-probes/1246-submersible-temperature-probe.html?search_query=133305&results=1)
